EDUCATION

BSCE

Sir Syed University of Engineering and Technology

10/2021 - Present

Current CGPA= 3.4

HSC

Govt.College Formen Nazimabad

08/2019 - 05/2021

Karachi Board

PERSONAL PROJECTS

TrendMine Ecommerce Website Platform

- Build E-commerce Website in Html, CSS ,JS with both user and admin side also include back-end with full documentation which is implemented in SQL use PHP to integrate it with front-end with a flavour of some data-mining strategy also.

Web-Based School Management System

- This School Management system implemented in HTML,CSS,JS for front-end and use mysql(xampp) to create database use PHP to integrate with front-end.

OOP-Semester Management System

- Java Swings for GUI forms based semester Management system implemented in java with Back-end Implemented in mysql(xampp) and use java.sql library to integrate it with front-end.

Airline Reservation System

- This is a forms-based airline reservation system implemented in C++. I developed it during the second semester of our C++ (Computer Programming) course.

Airline Reservation System-DSA

- In this Airline Reservation System we used data structure linked-list in java. I developed it during the third semester of our Data Structures and Algorithm course.

Some other Projects

- I also work on some non IT related project through out our Computer Engineering program like: electronics based 5x5 led cube pattern light, digital clock and stopwatch, metal detector, sound reactive circuit image processing based driver sleep detection system(DSP),Process management System , 2D aircraft attack game in asssembly(CO&A)
- Currently Working on smart plant watering AI semester project and floating point calculator FPGA based.
